

Figure 1A

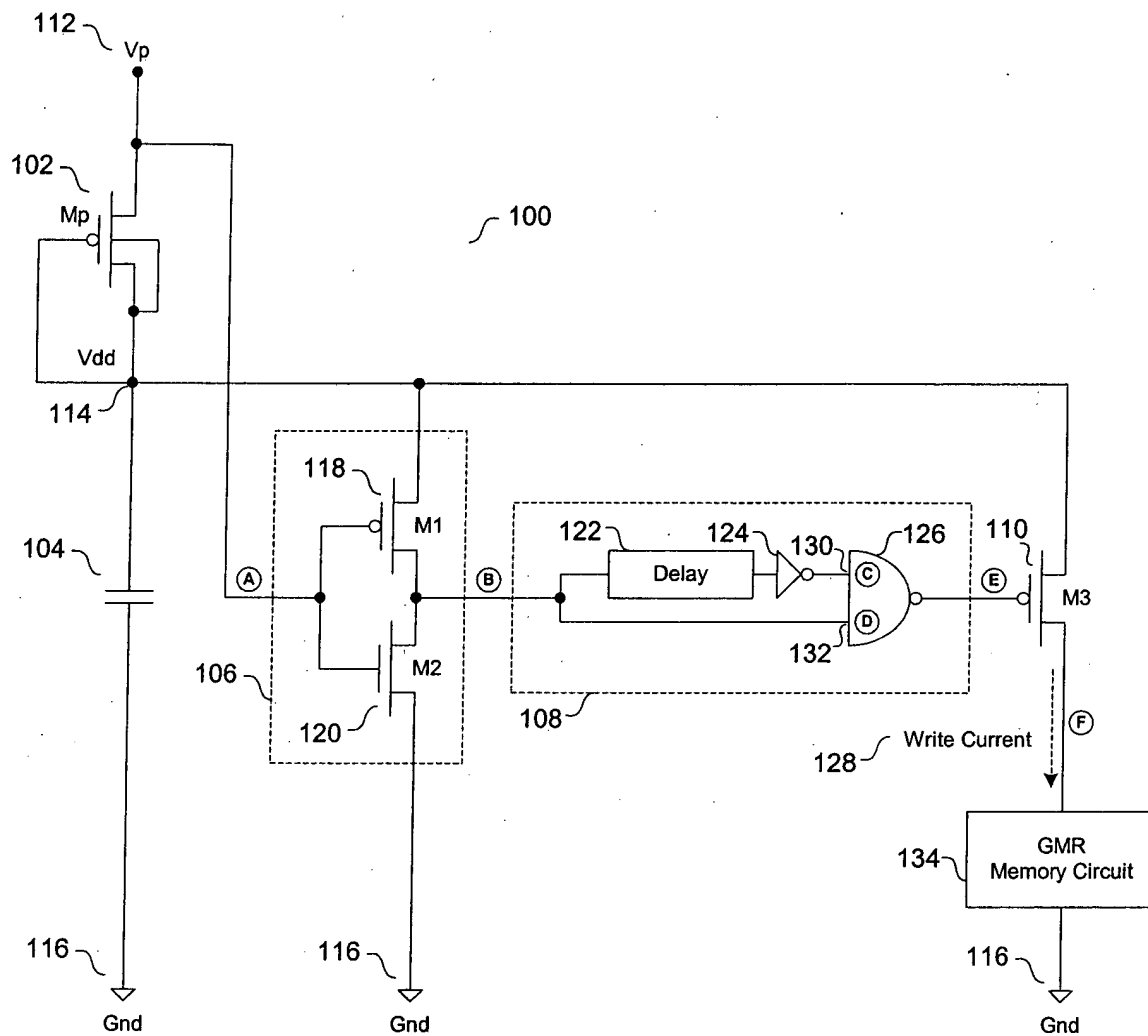

Figure 1B

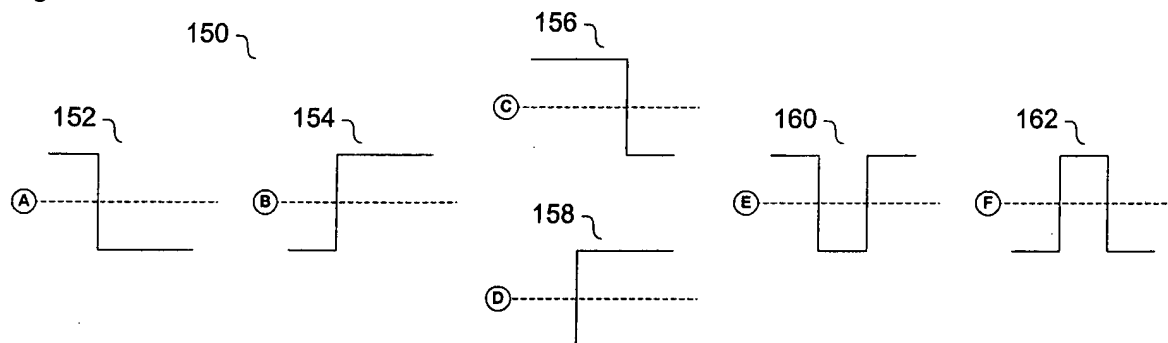

FIG. 10 is a perspective view of a second embodiment of a substrate assembly. The assembly includes a base substrate 300 with a central opening 302. Two side portions 220, 222 are connected by a bridge 304. A top layer 224 is positioned above the base, with a dashed arrow 128a pointing to its surface. A dashed arrow 128b points to the side portion 220, 222.
